RETURNED TO THE SCHOOL.

Superintendent Allison of the reform school, returned from Butte, Mon., this morning with Thomas Blundell of Salt Lake and Robert Hill of Ogden, who escaped from the school about two weeks ago. Blundell was captured by the city marshal of Butte, but it remained for the superintendent to find Hill; who was living with a rainer in a small cabin on the side of the bluff above the town.

After escaping from the institution the boys took the "brake beam" route and arrived in Butte two days later. Charles Wooten the other lad who escaped, is still at large and the superintendent has so far failed to ascertain his whereabouts.

A PORGER SENTENCED.

Today was devoted to the law and motion calendar in the Fourth district court, and but little business of public interest was transacted. Charles H. King was arraigned at the morning session on an indictment charging him with forgery and entered a plea of guilty. He was sentenced to two years in the penitantiary, and was taken to the penitentiary tonight by Deputy Marshal Gill. About a month ago, King went into the jewelry store of J. S. Lewis & Co., and purchased a watch, tendering in payment a check on an Evanston, Wyo., bank, endorsed with the name of a prominent Ogden business man. The officers have ascertained that he is wanted in several states for altering money orders and drafts.

REAL ESTATE ACTIVITY.

The farewell and benefit ball that was tendered last evening to G. T. Hyde and C. E. Layton, the young men who are soon to leave for a mission, was attended by about 100 couples. It was a pleasant after scenlily, and in a financial way was a very gratifying success. While the company were partaking of a bounteous lunch, prepared by a committee of young ladies, W. A. Hyde and Miss Maud Barnes delivered some recutations in their usual interesting style, which were beartily enjoyed. The very large attendance was a suggestive testimonial of the respect in which the iso young men are held by their associates.

Complaints of Impure Water—City Council Proceedings.

PARK CITY, May 6.—The storms of the past week have put the streets in a very miserable condition. It is nothing but mud, mud, mud.

Considerable complaint is being made as to the filthy condition of the city water, and some effectual measures should be taken to correct the abuse. The reservoirs are also said to be quite low. The mayor brought the matter up before the city council at its meeting last Wednesday night, but no action was taken.

I. O. O. F. INSTALLATION.

The officers of Canton Ontario, I. O. O. F., were installed last evening by Installing Officer F. A. Purker and the ceremonies were quite interesting. After the adjournment, Commandant L. E. Hubbard invited the members to the Palace restaurant where an elegant speriod and been provided, and the guests partook of the same with considerable relish.

COUNCIL PROCREDINGS.

The city council met in regular session last Wednesday night and transacted considerable routine business. The reports of the city officers for April were read and referred to the appropriation committee. The report of the city treasurer showed a balance on hund amounting to \$8,988.91.

Several petitions for new sidewalks were presented and referred to the license committee. Applications for liquor licenses were referred to the license committee. The finance committee reported that they had audited all the bills presented and found them correct. On motion they were ordered paid.

Mayor Gregor made a few remarks in reference to the water question, and the necessity of the council taking some immediate action on the matter. The question was discussed at some length, but the council adjourned without doing anything in the matter.

THE PUBLIC

It is surprising how simple a thing it is

for unscrupulous persons to impose upon a confiding nature. Not a day passes that does not bring us, through the columns of our many daily papers, the news of some imposition or fraud, by which or some imposition or fraud, by which some honest person or persons have been duped out of certain sums of money, or injured; in some way by placing too much confidence in the hundred and one statements and outlandish propositions made by a certain class of men who have not the knowledge or ability to earn a living in an honrable manner. Amongst this class may be found men who feed upon the genius of others, and who like so many sharks following a vessel in anticipation of a meal, so they watch the man of genius, and the moment he gives to the world some new idea, some new discovery, they pounce upon it and produce the vilest imitations and thrust upon the public as the original and endeavor to claim the honor of having discovered this new invention. Perhaps no scientific man of the present age has had more to contend with in this particular line than Dr. Haie of St. Paul. When he first announced to the public that he had discovered a method by which teeth could be filled without pain, the dental world laughed at him, and said "it was an impossibility," but when he proved his statement beyond a doubt and the world recognized the great value of his discovery, things changed, and the "sharks" swooped down upon the new method in hundreds. They secured one thing only, that was the quotation "fills teeth without pain." They hung out the sign, but they could not obtain the secret of the method. This annoyed them and they resorted to all kinds of trickery and abuse. Chicago has perhaps a thousand dentists, who now proclaim to the world that they have the only method by which teeth can be filled without pain, whereas not one of them can fulfill their contract, except those who have purchased the right from Dr. Hale of St. Paul. There is no other known method and there is only one deutist in each city who can secure this right. The public should bear this fact in mind and beware of impostors.

Dr. Griswold secured the sole right to operate the Hale method in Salt Lake city, and he is the only dentist here today that can some honest person or persons have been luped out of certain sums of money, or

TESTIMONIALS:

Dr. Griswold:

Dr. Brie-For years I dreaded a visit to a dentist, the mere thought of having a drill run into my sensitive teeth was enough for me, After you secured the right to use the Hale method for painiess filling, and upon inquiry, found that you were positively able to do the work without pain I decided to visit your office and reluctantly submitted to have my teeth operated upon. The first operation was enough to satisfy me. My fear of dentistry was a thing of the past, and after having some twelve fillings put in by you, and having two teeth restored to comfort and usefuiness by gold crowns. I can say I suffered not a particle of pain. The Hale method is indeed wonderful and you are to be congratulated apon securing the exclusive right to operate it in Salt Luke. Allow me to thank you and to say that your work is excellent. You have put my teeth in splendid condition. Yours very truly,

DEAR SIR-I am pleased to say that after having four teeth filled with gold in your office, that I was indeed surprised to find that you could actually fill teeth without pain. I have had many teeth filled before, but never without a great dead of suferin . I small be glad to recommend you to my friends, as I am much pleased with the work you have done for me and think the Hale method a most marvellous discovery. Very respectfully.
